38.01 Purpose.
The purpose of this Chapter is to protect, preserve and promote the physical and mental health and social well-being of the people, prevent and control incidence of communicable diseases, regulate privately and publicly owned dwellings to maintain adequate sanitation and public health, protect people’s safety, and promote the general welfare by legislation that shall be applicable to all dwellings now in existence or hereafter constructed. It is further declared that the purpose of this Chapter is to ensure that the quality of housing is adequate for protecting public health, safety and general welfare, including establishing minimum standards for basic equipment and facilities for light, ventilation and thermal conditions; for safety from fire and accidents; for the use by, location of, and amount of space for human occupancy; determining the responsibilities of owners, operators and occupants of dwellings; to protect the character and stability of all areas within the Village of Lake Delton; to provide minimum standards necessary for the health and safety of persons occupying or using buildings, structures or premises; and to thus prohibit the spread of slums and blight; to declare that buildings, structures and adjacent property that have become or are becoming deteriorated, dilapidated, neglected, a fire hazard, a vermin or rodent harborage, or unsanitary are detrimental to the health, safety and welfare of the residents of this community; to preserve the value of land and buildings throughout the Village of Lake Delton; and provisions for the administration and enforcement thereof.

38.02 Findings.
The Village Board hereby finds that there exists a shortage of adequate and affordable housing within the Village of Lake Delton. This shortage is due in part to the rapid growth of the area and the corresponding increase in the number of jobs available in the Village of Lake Delton and the surrounding areas. This rapid growth has brought with it a demand for several thousand additional transient employees each year. These transient employees are often housed in overcrowded rooms which poses an unacceptable risk to the health, safety and general welfare of those transient employees and the people of the Village generally. Accordingly, the Village Board further finds that transient employees constitute a vulnerable population requiring additional safeguards to ensure their health and welfare is maintained in a manner consistent with the Purpose of this Chapter.

38.03 General Provisions.
A. This Chapter shall be known as the “Housing Chapter” and establishes minimum standards for housing but does not replace or modify standards established by other Village ordinances governing constructing buildings and structures. In the event of a conflict between the provisions of this Chapter and any state code, law or Village ordinance, the provision that establishes the higher standard for promoting and protecting the health and safety of the people shall prevail.
B. The provisions of this Chapter shall be interpreted and applied as minimum requirements, shall be construed in favor of the Village of Lake Delton, and shall not be deemed a limitation or repeal of any power granted by the Wisconsin Statutes.
C. Unless housing occupancy is expressly permitted under this Chapter, such occupancy shall be deemed a violation of this Chapter.
D. This Chapter applies whether the premises are temporarily or continuously occupied or unoccupied, inhabited or uninhabited, commercial or noncommercial, and whether there is a structure, building or other improvement upon the premises.

E. Owners, their agents and occupants shall have all the duties and responsibilities as prescribed in this Chapter and the regulations promulgated pursuant thereto, and no owner or operator shall be relieved from any such duty and responsibility, nor be entitled to defend against any charge or violation thereof, by reason of the fact that the occupant is also responsible, therefore in violation thereof.

F. By filing an application for a License under this Chapter the owner grants to the Assistant Zoning Administrator, permission to enter and inspect the subject property to determine compliance with this Chapter. Each Licensee grants the Assistant Zoning Administrator, Village Building Inspector, Village Fire Chief or Fire Inspector, or a designated agent of the Village, permission to enter and inspect the licensed property at all reasonable times to determine compliance with the terms and conditions imposed by the License and this Chapter. Denial of access by an applicant will result in the denial of the application. Denial of access by a licensee will result in the suspension of the License and may result in the revocation of the License.

38.04 State Open Housing Law Adopted.
To ensure fair and open housing exists for all persons in the Village of Lake Delton, and to prohibit discrimination therein, the Village Board enacts this section adopting § 106.50, Wis. Stats., known as the Open Housing Law, and all subsequent amendments thereto. The Assistant Zoning Administrator shall be responsible for enforcing this Section and shall make available upon request complaint forms alleging a violation of this Section. If requested the Assistant Zoning Administrator shall assist the complainant in preparing the complaint and filing with the state Department of Safety and Professional Licensing.

38.05 Assistant Zoning Administrator Powers and Duties.
The Assistant Zoning Administrator is hereby made responsible for enforcing this Chapter. All inspections, enforcement, orders or matters relating to violations of this Chapter shall be under his direction and supervision. He may appoint or designate such other public officials or Village employees to perform duties as may be necessary for enforcement. The Assistant Zoning Administrator shall make inspections pursuant to the plans for inspection authorized by this Chapter or in response to a complaint that an alleged violation of this Chapter’s provisions or of applicable rules or regulations pursuant thereto has been committed; or when the Assistant Zoning Administrator has valid reason to believe a violation of this Chapter or any rules and regulations pursuant thereto has been committed.
