Engineers John Langhans, Raine Gardner and McKenzie Berg presented information on the design of proposed reconstruction of Alcan Drive explaining the decision of the Village Board to use 11' lanes with 5' bike paths on each side and 1' shoulders.

The property owners, many who were in attendance were upset with this decision as they do not want to take away the uniqueness of the existing roadway and do not want to see such a major improvement to the area. They preferred two 10' lanes.

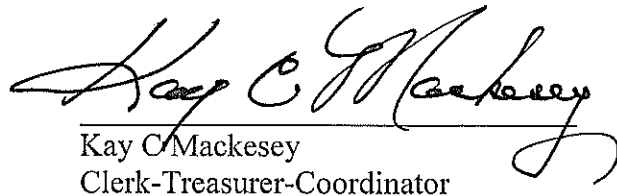

Most of the trees existing in the right-of-way will have to be cut, Alliant wants to bury their electrical which means that all of the other services will too. Trees that can be saved will be.

The design would try and align the roadway so that it was located away from the developed areas, as much as would be permitted and still maintain the flow of the roadway for safety.

Other options were also discussed but were not adaptable for this location.

Motion by Trustee Morris, Second by Trustee Bremer to reconsider and to approve the 30' paved option. Motion carried.

Motion by Trustee Bremer, Second by Trustee Morris to adjourn. Motion carried. Meeting adjourned.
